

TECHNICAL DATA SHEET

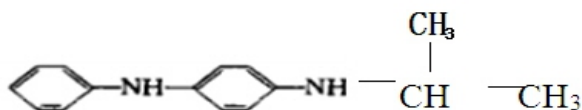

IPPD (4010NA)

Generic Abbreviation: Rubber Antioxidant IPPD (4010NA)

Chemical Name: N-isopropyl-N'-phenyl-p-phenylenediamine

molecular formula: C₁₅ H₁₈ N₂

structural formula:

Technical Specification:

Items	Specifications
Appearance	Gray purple to puce granule or flakes
Purity,min, %	95
Melting point,min,°C	70
Heating loss, max, %	0.5
Ash content, %,≤	0.3

Application: The product is a common widespread high efficiency antioxidant, excellent performance against ozone, oxygen, light etc. good property of protection against fatigue and flexible cracking; Mainly used for tires, inner tubes, rubber hose, adhesive tape etc.

Package: Kraft paper outside and plastic inner, net 20kg or 25kg.

storage: Keep off moisture or heat and away from fire.

Shelf Life : 24 months
